Inclusion policy

The Parachute Club aims to provide care for the inclusion of all the children in the local area. The club has introduced an inclusive play care model to ensure quality care is provided to meet the needs of all children, identifying their needs, working with parents and other agencies enabling all children to play and have full, active and equal parts in club activities.

The club will use its individual play care plan to assess the needs of a child. Staff, children and parents will complete play care plans.

The club hopes to provide a service that is equal to all children opening opportunities for all through care full planning and preparation, and working closely with other agencies
