Ofsted
Outstanding 2022

Dear Parents.

As of January 2015 there have been some changes made to the way that we provide food for your children. As of December 2014 we are obligated to inform every one of the allergens that may be contained in the foods we serve this list is attached to this letter, and is displayed in the community room. The list is subject to change due to baking activities and food changes etc. Parents will be informed of the allergens when the situation arises.

The other and more dramatic change to our service is the food we can provide your children, as you will be aware we provide a biscuit/ cake as part of snack we can no longer do this under new government standards also the use of chocolate in any form is no longer allowed, we will use the stock that we currently have in club but there will be no more purchased. As you will understand the children are very upset by this, over the next few weeks it will be trial and error with the changes to foods children have at snack time attached is our new menu.

Please help your children settle into this change and to understand what will now be in place.

Thank You

Nicola and The Parachute Club.
